WHAT TO WEAR

Please wear simple, plain clothes without images or logos. For the meetings in Central Park, you should travel as lightly as possible, i.e. without a bag or backpack.

BRING A SONG

Please bring a song that you might like to work on or share with someone else. The song can be in any language. You must have both melody and words memorized.

Traditional and folk songs are best. If you choose a contemporary song, it should be one that does not rely too much on instrumentation or the personal style of the singer. Find a song that you feel is your own - a song that feels good to sing.

SILENCE & REST

It is a good idea to limit your talking during the breaks between sessions. You may also want to do so overnight on Saturday. This will deepen your experience of the weekend.

Please allow yourself to be well-rested so that you can participate fully on both days. I recommend that you do not make any additional plans during the time of the workshop.
