

Urban Research Theater presents

# THE HOUSE

a weekly theater workshop led by Maximilian Balduzzi

A group of people confined within a house.  
Outside, a world reduced to ashes.  
Inside, they begin a game.  
Why do they play? To pass the time?  
To train as warriors? To stay alive?

The first part of each session will be dedicated to rigorous physical training.  
In the second part, we will explore the theme of play in wartime through individual  
and group work on text and action. There will be regular public demonstrations of work.

Wednesdays 10am-1pm  
\$20 per session
